3,893 BRCA1 SNVs with saturation genome editing classes (Findlay 2018)
Seed 20261016: draw one loss-of-function variant
Draw 99 variants not classed loss of function, at other positions
test/case_brca1.vcf (100 variants)
test/case_brca1.truth.txt
Run the pipeline (replay profile)
Outcome: rank of the diagnostic variant under each score
Checks in record_run.sh
Rebuild the case: identical files
Rebuild the windows with the source code: identical
Run twice: identical ranked.tsv
-resume: every task cached
Replay Runpod H100 and L40S scores
Add a REF mismatch: record dropped
Add an unscored SNV: run stops
